

# BUILDING A CULTURE OF LIFE CONFERENCE

RESPECT LIFE, BIOETHICS, AND LEADERSHIP

We are excited to announce central Ohio’s first ever comprehensive, two-day, bioethics conference: Building a Culture of Life. The intensive two-day training program will help both the new and the experienced pro-life leader to understand and communicate the dignity of human life from conception until natural death.

While this is our first ever program of this nature, we anticipate reaching more than 500 attendees – and with your help, we can reach even more.
